

Trim Series

Cove lighting

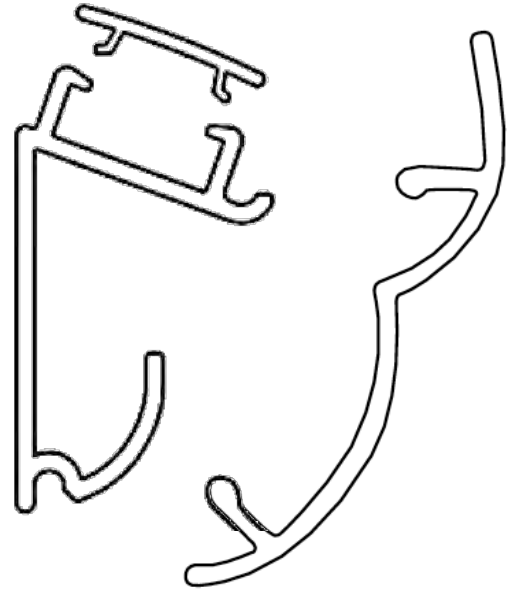

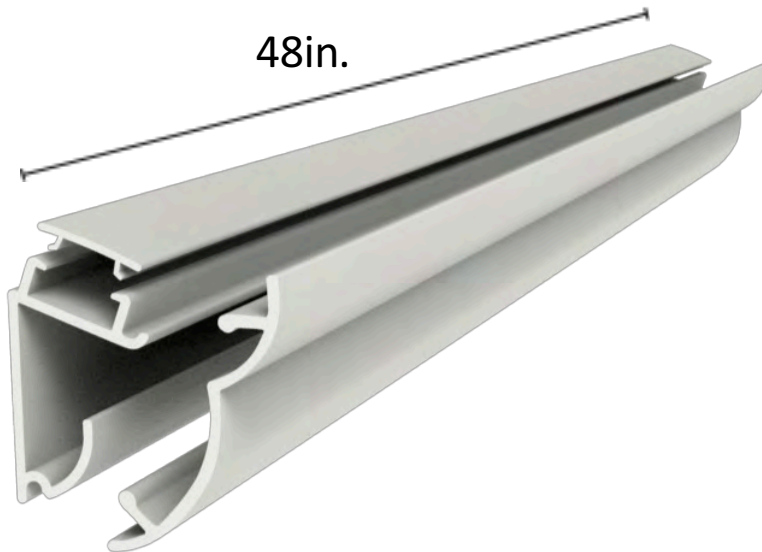

Floor Accent lighting

LumaTrax Trim Series is a patented lighting channel with integrated cable management designed to hold an 8 - 12mm LED strip/tape. The channel provides an aesthetically appealing trim feature. Perfect for use above base boards, below ceiling crown molding or anywhere indirect linear lighting is desired.

- Simple Retrofit Solution with Surface Mount Technology
- Eliminates Fabrication Costs
- Customizable On Site – Modular and Cuttable
- “Disappears” into Architecture
- Integrated Cable Management for Any Low Voltage Cables
 - Speaker Wires, Ethernet Cables Etc.
- Allows for Continuous Lighting Around Corners
- Non-Metallic and Paintable

Trim Series
